

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

April 1-15, 2005

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **April 1-15, 2005**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Associate Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CD must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

<u>Documents Received on Friday, April 01, 2005</u>			
2001112052	Cypress Avenue Bridge Project Redding, City of Redding--Shasta City proposes to widen Cypress Avenue at the Sacramento River crossing to increase the number of traffic lanes from four to six and to provide bicycle lanes and pedestrian sidewalks in both directions. Two project build alternatives are being considered: full replacement and widening; and rehabilitation and widening.	EIR	05/16/2005
2004061138	City of Greenfield General Plan EIR Greenfield, City of Greenfield--Monterey The General Plan update provides a 20-year blueprint for the future growth of the community, providing guidance for the 2005-2025 time period.	EIR	05/16/2005
2005011108	Sale of Flanders Mansion Property Carmel-by-the-Sea, City of --Monterey Potential sale of City-owned property in the City of Carmel-by-the-Sea, specifically the Flanders Mansion Property. This property is a single-family residence located on a 1.25-acre parcel zoned P-2 (Improved Parkland). The residential building is listed on the National Register of Historic Places and the parcel is part of the 35-acre park known as the Mission Trails Nature Preserve.	EIR	05/16/2005
2005021117	Airport Land Use Compatibility Plan for San Diego International Airport San Diego County Regional Airport Authority San Diego--San Diego The basic function of an airport land use compatibility plan is to promote compatibility between an airport and the land uses that surround the airport, to the extent that these areas are not already devoted to incompatible uses.	EIR	05/16/2005
2001091113	Conditional Use Permit 98-044 Yuan Yung Retreat Center Los Angeles County Department of Regional Planning --Los Angeles This is an application for a Conditional Use Permit to authorize the development of a 67,702 square foot Buddhism retreat center consisting of offices, a chapel, meeting rooms, libraries, a Sunday school, a church, dormitories, a shrine, abbot's quarters, a kitchen, a dining hall, a meditation hall, a multi-purpose hall, and a basement storage/utility room.	FIN	
2005022041	Downtown Weed Roadway Rehabilitation Project Caltrans #2 Weed--Siskiyou The project proposes to rehabilitate portions of State Route 97, 265, and the Central and North Weed Interchange ramps on Interstate 5 within the City of Weed. The proposed project will install a signal and reconfigure the SR 97 and 265 intersection, install signals on SR 97 at the Main Street and College Street intersections, rehabilitate existing pavement, restore and upgrade drainage systems, and replace sidewalks, driveways, curbs and gutters in compliance with American Disabilities Act (ADA) where necessary. <u>Documents Received on Friday, April 01, 2005</u>			
2003102073	RPLCo's RV Park/Campground - APN: 420-142-09 (Orick Area) CDP02-64/CUP02-22 Humboldt County Community Development Services --Humboldt Conditional Use and Coastal Development Permits for the development of a RV and camping resort on the property known as APN 520-142-09. The project includes the development of 322 RV/tent sites, appurtenant restroom and shower facilities, an RV sewer dump, an on-site disposal system, fencing and landscaping. This permit includes an illuminated 5' x 10' double-sided sign at the park's entrance. A significant amount of area in the western portion of the parcel will be used as leachfield and will, therefore, remain open and can be used for recreational purposes. The parcel is 27 acres in size and served by community water and on-site sewage disposal. All structures will be designed in accordance with the State and National Parks Architectural Character Guidelines to help them blend in with the Redwood State and National Parks' theme nearby. The proposed restrooms and other structures have been reviewed and approved by the Orick Design Review Committee.	MND	05/02/2005
2005041002	Proposed Site No. 2A West Side Educational Complex, Delano, CA Delano Union School District Delano--Kern The proposed site currently supports an established almond grove. The educational complex would consist of one elementary school (K-5) with a master plan capacity of 600 students and one middle school (grades 6-8) with a master plan capacity of 800 students. The schools would operate as a single track modified calendar. Most students would walk.	MND	05/02/2005
2005041007	Grizzly Ridge Reservoir No. 2 Murrieta County Water District Murrieta--Riverside The proposed project consists of construction of a domestic water storage reservoir, including site grading, constructing a reservoir foundation and retaining walls, preparing the reservoir site, constructing a 1.5 to 1.8 MG welded steel water storage reservoir and appurtenances, installing onsite connection piping, coating and painting the reservoir and landscaping the site.	MND	05/02/2005
2005041011	Minor Modification of Mine Reclamation Plan for Addition of Borrow Area at Mtn. Pass Mine San Bernardino County Land Use Services Department --San Bernardino Molycorp proposes to remove borrow material from shallow pits on 35 acres within the planned footprint of the West Overburden Stockpile for a 6-month period. Material will be used for the final closure covers of two tailings ponds in compliance with Lahonton RWQCB Order Nos. 6-00-74 and R6V-2004-0042.	MND	05/02/2005
2005042001	West Campus Firing Range Removal Project Yosemite Community College District Modesto--Stanislaus The proposed project includes two elements: (1) decommissioning and a lead abatement program that were completed at the small arms firing range in 2001, and (2) demolition and removal of the facility.	MND	05/02/2005

2005042003	Parcel Map 05-4 Tehama County Planning Department Red Bluff--Tehama To subdivide approximately 340 acres into two parcels a 69 acre parcel and a 270 acre parcel.	MND	05/02/2005
2005042010	City of Roseville Creek & Riparian Management Plan Roseville, City of Roseville--Placer The purpose of the proposed project is to: provide guidance for balancing public health and safety needs with natural functions and values of creek resources; identify restoration strategies, maintenance practices, and monitoring; and position City to competitively compete for future grant funding.	MND	05/02/2005
2005042011	S04-0036 / AT&T Wireless Arroyo Vista Monopine El Dorado County Planning Department --El Dorado A Special Use Permit request to replace an existing 45-foot tall wooden monopole with an 80-foot monopole. Three wireless carriers are to utilize the facility with antenna arrays mounted at the 71-foot, 65-foot, and 45-foot centerline elevations respectively. Equipment cabinets are to be located on concrete slabs within a 600 sf leased area screened by a 6-foot tall chain link fence. Proposed site access is a 12-foot wide gravel access easement from the leased area to an existing paved driveway linking the property to Arroyo Vista Way.	MND	05/02/2005
2002102090	South Lincoln Sewer Line Project Lincoln, City of Lincoln--Placer The proposed project is the installation of a 2.8-mile long underground sewer line beginning 875 feet north of the intersection of Athens Avenue and Industrial Boulevard and extending west/northwest to the City of Lincoln Wastewater Treatment and Reclamation Facility near Fiddymment Road. The alignment crosses Orchard Creek and is within a portion of the Orchard Creek Conservation Bank.	NOP	05/02/2005
2004071045	Mesa Verde Estates EIR Calimesa, City of --Riverside The applicant is proposing a Specific Plan Amendment for a portion of the Oak Valley Specific Plan originally approved in 1990. The original Specific Plan allowed for 3,451 residential units with a gross density of 2.18 dwelling units per acre including 2,356 single family units on 672 acres and 1,095 multi family units on 73 acres, 26 acres of commercial, 2 school sites for elementary, junior, and high school, 428 acres of golf course, 60 acres of parks and drainage areas, and 191 acres of open space. The original Specific Plan was approved by the County of Riverside.	NOP	05/02/2005
2005041006	South Region High School No. 7 Los Angeles Unified School District Huntington Park--Los Angeles The proposed project consists of construction and operation of a new high school that would provide 1,620 two-semester seats to relieve an existing overcrowded Huntington Park High School. The proposed project would be located on a 12.6-acre area and would include approximately 161,000 square feet of development, consisting of 60 classrooms, a performing arts enter, administrative offices, maintenance and operations/support, and police/security office. 2005041008	<p>City of San Bernardino Stater Bros. Distribution Center Project San Bernardino, City of San Bernardino--San Bernardino</p> <p>The proposed project is the acquisition of a Development Permit Type II (DP-II) and TPM 17235 entitlements from the City of San Bernardino to develop up to approximately 163 acres of land in accordance with the requirements contained in the San Bernardino International Trade Center Specific Plan (Specific Plan) and the City of San Bernardino General Plan and Development Code. Stater Bros. is a leading grocery retailer in southern California, presently operating 161 supermarkets. It intends to relocate and consolidate all of its food distribution facilities into a single new integrated facility within a portion of the Specific Plan area. These facilities, together with corporate headquarters, truck maintenance facilities and other appurtenant support facilities, would result in the initial development of approximately 1.93 million square feet of gross interior industrial space on 163 acres of land. Ultimately, 2.1 million square feet may be developed.</p>	NOP	05/02/2005
2005042004	<p>Entercom General Plan Amendment, Community Plan Amendment, Tentative Subdivision Map, Special Development Permit, Abandonment, and Affordable Housing Plan Sacramento County Citrus Heights--Sacramento</p> <p>The project requests the following:</p> <ol style="list-style-type: none"> 1. A General Plan Amendment to change the land use designation of 44.4 +/- acres from Agricultural-Residential to Low Density Residential (38.7 +/- acres), Medium Density Residential (3.4 +/- acres), and Commercial and Offices (2.3 +/- acres). 2. A Community Plan Amendment to change the East Antelope Specific Plan land use designation for 44.4 +/- acres from Agricultural-Residential to Urban Residential (42.1 +/- acres) and Commercial (2.3 +/- acres). 3. A Rezone for 44.4 +/- acres from AR-2 to RD-7 (38.7 +/- acres), RD-20 (3.4 +/- acres), and GC (2.3 +/- acres). 4. A Tentative Subdivision Map to divide 44.4 +/- acres into 302 single family lots, one multiple-family lot, one commercial lot, one detention/open space lot, and four landscape corridor lots. 5. A Special Development Permit to: <ol style="list-style-type: none"> a. Allow a density bonus to exceed 7 du/ac in the proposed RD-7 zone. b. Reduce the minimum lot area in the proposed RD-7 zone from the required 4,000 sf for interior lots and 4,800 sf for corner lots consistent with the Specific Plan to a minimum of 3,200 sf (40 ft. x 80 ft., typical). 6. An Exception to Title 22.110.070(d) of the Land Development Ordinance to allow the depth of at least three lots to exceed three times the lot width. 7. An Abandonment of various easements, including: a portion of a 20-foot wide roadway easement, a portion of a 40-foot roadway easement, a 25-foot Pacific Telephone & Telegraph (PT&T) easement. 8. An Affordable Housing Plan consisting of the construction of low and very low income for rent affordable housing. 	NOP	05/02/2005

2005042013	Sea and Sand Motel Santa Cruz, City of Santa Cruz--Santa Cruz The project consists of a Coastal and Design Permit to demolish a 1,423 sf one story, five room motel wing and replace it with a 3,471 sf two story, seven room wing in the same location.	Neg	05/02/2005
2005042015	Kable Coastal Development Permit Humboldt County Planning Department --Humboldt This project proposes a modification of a coastal development permit for an approved subdivision to allow the construction of a single family home on one of the lots (Parcel 2). The new home is proposed to be approximately 1,600 sf in size and up to 20' in height. The siding material will be "Hardie Plank", and roofing will be composition shingles. The parcel is served by public water and an on-site sewage disposal system. A reduction of the required 100' wetland setback is necessary to allow construction of a home on the parcel - the setback is proposed to be reduced down to 10' in some areas.	Neg	05/02/2005
2005042016	Bethel Garden Estates Land Use Permit Contra Costa County --Contra Costa Request for a land use permit to establish a boat storage facility with 240 stalls. A variance is requested to allow a sand and gravel surface (where a paved surface is required).	Neg	05/02/2005
2005042017	Beers Minor Subdivision MS 04-980 Oakley, City of Oakley--Contra Costa The proposed project site consists of one parcel totaling 3.015 acres. The site is bounded by Hagar Lane to the west, and West Cypress Place to the southeast. The site is currently zoned A-2 with a minimum lot size of 5 acres. The General Plan land use designation is Single Family Very Low Density (SV), which allows 1.0 units per gross acre. As part of this project the applicant is requesting to rezone the property to R-40 for Single Family Residential Development (R-40), and subdivide the property into 3 separate lots. Approval of the proposed subdivision would result in the creation of 2-net new single-family lots. The development of the lots will be required to meet the standards set forth in the Zoning Ordinance which establishes minimum lot sizes and dimensions, minimum setbacks, height requirements, accessory structures requirements and parking requirements as developed as part of the R-40 Zone District. The project includes a variance request to allow lot C to have a width of 120 feet where the R-40 district requires a minimum lot depth of 140 feet.	Neg	05/02/2005
2004052087	SB 271 Restoration Projects Fish & Game #3 --Humboldt The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, Mr. Dylan Brown representing Mattole Restoration Council. The applicant proposes the removal and reinstallation of existing culverts to enhance fish passage on South Fork Bear Creek, tributary to Mattole River.	NOD

	and three acres of valley oak savannah habitat with a native perennial grass understory, 3) slow the peak runoff flow into the Los Angeles River to improve flood management conditions, 4) to maximize recharge of the underlying groundwater aquifer, and 5) to provide a natural area for the use and enjoyment of people and wildlife.		
2005048008	Issuance of Streambed Alteration Agreement #05-0019, Cold Creek, Tributary to Sacramento River, Siskiyou County Fish & Game #1 Mount Shasta--Siskiyou The project proposes to install a utility line crossing approximately 24-inches wide by 65-inches deep with a minimum of 48-inches of cover. The trench for the utility lines will be excavated during low flows and outside the flowing channel.	NOE	
2005048009	Change in Point of Diversion and Purpose of Use for a Pre-1914 Appropriate Water Right State Water Resources Control Board, Division of Water Rights --Trinity The petitioner seeks approval of a petition to change a pre-1914 appropriative water right to relocate the point of diversion (POD) and change the purpose of use to benefit the fish and wildlife resources of Indian Creek, pursuant to Water Code section 1707. The petitioner intends to remove an existing dam and relocate the POD downstream of the original POD. The petitioner also proposes to install a new screened irrigation pump and delivery system at the new POD. Due to the increased efficiency of the pump and delivery system, less water will be diverted for irrigation than in the past. The petitioner proposes to divert 0.5 cfs of water, not to exceed 182 afa at the new POD for irrigation, domestic, and stockwatering uses from April 15 to October 15. The petitioner requests that the water previously diverted for irrigation under the pre-1914 right be allowed to remain in Indian Creek for fish and wildlife enhancement. The amount of water dedicated to instream flows would be approximately 3.5 cfs, not to exceed 1,350 afa to instream flows, during the irrigation season.	NOE	
2005048010	Western Canal Cable Car Footing Repair Water Resources, Department of Oroville--Butte Stabilize and protect footing of Cable Car support structure using 3-5 yards of concrete and riprap. Work will be conducted during April of 2005.	NOE

	equipment on the campus.		
2005048013	Panorama School Modernization Project Brisbane School District Daly City--San Mateo The project's general design includes plumbing, lighting, electrical, ADA flooring and window wall replacement, asbestos removal, repairs to playground, restroom facilities.	NOE	
2005048014	State Route 88 - Baker and Pezzi Roads Intersection Improvement Project Caltrans #6 Stockton--San Joaquin The project will realign the offset intersection of Baker and Pezzi Roads on State Route 88 in San Joaquin County at Kilo Post 7.0/7.7. In addition, SR 88 would be widened to provide a left-turn channelization (left-turn lane). The project involves utility relocation, equipment staging, demolition and disposal of pavement, off-road detour, drainage/culvert and temporary easement.	NOE	
2005048015	Sunrise Isolation Pool Project Fish & Game #2 --Sacramento The purpose of the Sunrise Isolation Pool Project is to determine the response of juvenile salmonids to connecting the pool to the main channel of the river at river flows below those that presently top the berm separating the pool from the river. Water presently overtops the berm at river flows exceeding approximately 4,000 cfs. The objective is to provide a six-inch deep channel between the river and the isolation pool when flows in the river are 1,500 cfs. This project involves experimental management and resource evaluation activities that do not result in a serious are major disturbance to an environmental resource.	NOE	
2005048016	Grant Application for Planned Improvements at Del Mar Park (Project Number XN-40-018) Morro Bay, City of Morro Bay--San Luis Obispo Secure funds to construct two new tennis courts, with fencing but without lighting, immediately west of existing roller hockey rink at Del Mar Park. The site is flat with no sensitive resource issues. The project includes an asphalt overlay within the existing parking lot and an overlay of existing pedestrian pathways within the park.	NOE	
2005048017	Temporary Parking Lot 17 University of California, Davis Sacramento--Sacramento UC Davis Medical Center proposes to construct a temporary surface parking lot on 2nd Street between Research Building III to the west and the existing Parking Lot 17 to the east. This temporary parking lot would provide additional parking capacity on a short-term basis, until such time that the campus provides additional permanent parking capacity by constructing a new parking structure. The temporary 53-space lot would be developed with a chip-sealed surface. No other improvements such as lighting or landscaping would be installed. Construction of the temporary lot would begin in Spring 2005 and be completed by Summer 2005. The lot is expected to remain in use until 2010.	NOE

1998101060	Heschel West School Project 98-062 (CUP) Los Angeles County Department of Regional Planning Agoura Hills--Los Angeles Private, religious elementary and middle school for up to 750 students with classrooms, libraries, auditorium, cafeteria, staff offices, parking areas, athletic facilities and gymnasium (total square footage about 166,450).	EIR	05/18/2005
2004061135	Los Banos Rail Corridor Master Plan Los Banos, City of Los Banos--Merced The proposed project would provide direction for land use to ensure future implementation of community goals as included within the plan. The project includes a General Plan Land Use amendment and parallel zoning reclassification for consistency, which would change the designated land uses to achieve mixed-uses. The goal of the project is to promote the continued economic development of downtown Los Banos by planning for commercial opportunities, multi-family residences, community space, recreational amenities and overall mixed-use development. Such improvements would increase the attractiveness and utility of downtown and provide interconnected access through the City's core.	EIR	05/18/2005
2004062104	General Electric Planned Development Zoning San Jose, City of San Jose--Santa Clara The project proposes to rezone the site from Heavy Industrial to A (PD) Planned Development Zoning District to allow the development of approximately 646,000 sf of retail commercial uses on 55 acre site. Specific tenants are not known at this time. The property currently contains the existing GE facility, which consists of office/manufacturing buildings, pavement, and limited landscaping. The project proposes to retain the office portion of the historic GE Motor Plant Building.	EIR	05/18/2005
2004071098	Mountain Park Specific Plan Amendment Anaheim, City of Anaheim--Orange The proposed project involves the development of a maximum of 2,500 residential units, and non-residential uses including public facilities, recreational facilities, and infrastructure.	EIR	05/18/2005
2005011033	Rosedale Ranch Project (GPA/ZC #04-0671) Bakersfield, City of Bakersfield--Kern Annexation of 1,655 acres of unincorporated land in Kern County by the City of Bakersfield, and a General Plan Amendment and Zone Change to accommodate a master-planned community of low, low medium, and high medium density residential; general and mixed use commercial; and light industrial uses. Additionally, the project would involve a Development Agreement with the City of Bakersfield and rescinding the portion of the Rosedale Ranch Specific Plan which covers the subject site. 2003044003	Lower Santa Ana River (Reach 1 and 2) Maintenance Project, Staging Area Modification U.S. Army Corps of Engineers Huntington Beach--Orange This SEA addresses proposed modifications and additions to the staging areas required for continued construction of the Lower Santa Ana River.	FIN	
2005041016	TT 04-71609 / RPD 04-7160 / OTP 04-71611 Thousand Oaks, City of --Ventura The proposed project consists of the construction of 42 single-family detached condominium units on 5.6 acres of land within a legally recorded parcel (Lot 30), the last remaining portion of previously approved Tract 4862. In addition, the applicant is requesting approval to remove 16 oak trees and encroach into the "Protected Zone" of 35 others. It should be noted that this residential project is subject to a Stipulated Judgement between the City of Thousand Oaks and the property owner, which grants certain vested residential development rights within Lot 30, including the anticipated removal of oak trees, as set forth under the provisions of Ventura County Superior Court Case No. CIV 123196.	MND	05/03/2005
2005042019	Wells Replacement Project Modesto, City of Modesto--Stanislaus The project consists of the development of two new drinking water wellsites in the City that will assist in replacing water supply capacity that the City has lost from closure of existing drinking water well sites. A third site is listed as an alternative site if one of the other two does not have adequate water production, or meet federal drinking water standards. All three sites are located within proposed or existing Park sites and will include electric pumps, filters, an emergency generator, motor control center, and will include landscaping and a screened fence.	MND	05/03/2005
2005041020	Antelope Valley College 2020 Facilities Master Plan Update Antelope Valley Community College Lancaster--Los Angeles The 2020 Master Plan Update provides for the development of new classrooms, labs, and other instructional facilities for nearly every academic discipline, as well as new and improved infrastructure that adequately supports the future student enrollment and campus functions within the existing Antelope Valley College campus in Lancaster.	NOP	05/03/2005
2005041021	Russell Ranch Retail Center Westlake Village, City of Westlake Village--Los Angeles The proposed project would develop the 21.22-acre site with a retail center anchored by a Lowe's home improvement store. In total, the project proposes approximately 230,000 square feet of building space, with the Lowe's store comprising approximately 170,000 square feet. The remaining 60,000 square feet of building space would be available for various retail and restaurant use. The retail center would also include internal vehicle and pedestrian circulation routes, parking lots, and various onsite infrastructure improvements.	NOP	05/03/2005

2005048072	<p>Municipal Service Review (MSR) and Sphere of Influence (SOI) Update for the Empire Sanitary District Stanislaus County Local Agency Formation Commission Modesto--Stanislaus</p> <p>The Stanislaus Local Agency Formation Commission has prepared a Municipal Service Review (MSR) and Sphere of Influence (SOI) Update for the Empire Sanitary District. The District is legally authorized to provide domestic sewer services and as a special district, it is required to have an adopted and updated SOI. The Cortese-Knox-Hertzberg Act of 2000 calls for the Service Review to be completed prior to or concurrent with the SOI Update.</p>	NOE	
2005048085	<p>Septic Tank Installation, Beal's Point RV Campground, Folsom Lake State Recreation Area Parks and Recreation, Department of --Placer</p> <p>Install two, 1,000 gallon capacity septic tanks on two existing 6" sewer lines to the existing lift station at the Beal's Point Recreational Vehicle Campground at Folsom Lake State Recreation Area to prevent solids from clogging the existing lift station. Prior to construction, a State park Resource ecologist will identify an elderberry bush 37 feet away from the project area for protective action. The bush will be flagged and a buffer area marked with paint or orange safety netting. Rock barriers will be permanently placed around the shrub outside the drip-line as well. The septic tanks are being installed in previously disturbed ground along the alignment of existing sewer lines; however, the excavation for the septic tanks will be monitored by a DPR-qualified archaeologist. No increase in capacity or use is being considered as part of this project and water will be available to control dust as needed during excavation and project construction. This project protects public health and supports continued use and maintenance.</p>	NOE	
2005048086	<p>Replace Communications Transmitter Building Parks and Recreation, Department of --Contra Costa</p> <p>Remove the existing shipping container style building and replace with a pre-built shelter at Mount Diablo State Park. The new building has a 20 AWG steel core that is wrapped with insulation and will be painted to match surrounding terrain. Building is necessary protection to house a new Harris Diamond sold state, air cooled transmitter. The existing shipping container has a footprint of 160 sf, and the replacement building will be 232 sf, and will sit on a concrete slab measuring 11' x 27'. Excavation for the slab will not exceed six inches. The site has been previously disturbed by the installation of the American Towers communication tower and surrounding out buildings. There is not vegetation within the work area. Building is necessary to support existing communications tower lease.</p>	NOE	
2005048087	<p>Install Interpretive Display Shelter Parks and Recreation, Department of --Contra Costa</p> <p>Install an interpretive display shelter in front of the restroom at the Lower Summit Parking lot at Mount Diablo State Park. The display shelter will be built to Department Standards, and will conform to Department's Accessibility Guidelines (ASA). The area is previously disturbed, with hard, packed earth and minimal vegetation, adjacent to public walkway. Installation will require two 12" diameter holes, 36" deep. Project enhances interpretation.</p>	NOE

	or repair boardwalk observation decks, provide ADA accessible parking, and reconstruct the entryway to the boardwalk.		
2004092011	<p>Summer Lakes (Portion of East Cypress Corridor Specific Plan) Oakley, City of Oakley--Contra Costa</p> <p>Shea Homes is proposing to revise the portion of their Summer Lakes that is located north of East Cypress Road. The 686-acre Summer Lakes project has been included in the East Cypress Corridor Specific Plan. The proposed revisions to the County approved Summer Lakes site plan include the elimination of the 18-hole golf course, construction of a high school in place of residential homes at the northern end of the site, and increasing the size of the lake by 14.2 acres, adding a 1.5 acre retail center on the north side of East Cypress Road in place of residential units, and adding 24.4 acres of park land. If it is determined that the high school is not a viable use residential homes would be constructed. The existing general plan land use designations for those areas where the use would change, such as the high school site and retail center, would be changed to reflect the proposed land use.</p>	NOP	05/05/2005
2005041027	<p>Central Region Elementary School No. 18 Los Angeles Unified School District Los Angeles, City of--Los Angeles</p> <p>The project proposes a two-story school of approximately 43,000 sf, including 23 classrooms, a speech therapy room, three small group instruction rooms, a library, cafeteria, a multipurpose room, and administration offices. The building would be configured in an "L" shape along the northern and eastern sides of the site. The remainder of the site would be developed with play areas. Subterranean parking is proposed beneath the school buildings on the eastern end of the site. The proposed project would require approximately 50 faculty and staff and may require part-time staff for special events. Primary access to the campus for school buses and private vehicles would be from 31st Street, and a drop-off and pick-up zone would be located at the northern end of the site. A 52-space underground parking structure accessible from 32nd Street would accommodate faculty and visitor parking. The proposed school would provide 575 two-semester seats for grades K-5. The school would relieve overcrowding at the 20th Street, 28th Street, and San Pedro Street Elementary Schools.</p>	NOP	05/05/2005
2005041028	<p>City of Colton Iron Horse Hills Vesting Tentative Tract No. 16798, A Residential Project Colton, City of Colton--San Bernardino</p> <p>The project site encompasses approximately 119.57 net acres. Approximately 92.05 acres of this site are proposed to be graded to allow development of up to 247 proposed residential units, roadways and other residential neighborhood support facilities. The remaining project area (about 29.95 acres) will be left natural as open space area. The project site is located southeast of Barton Road, west of Reche Canyon Road, and north of the Riverside County line in the City of Colton. The proposed development plan provides for three residential neighborhoods and six other park and open space areas. The three neighborhoods are to be divided into estate lots, premier lots, and condominium lots. Open space uses on the site can be divided between those that will be retained in relatively natural condition and the developed open space uses, which includes two park areas. The remaining components of the project will include roadways that will provide access to the project site via Barton Road and Westwood Street, and the internal collector</p>	NOP	05/05/2005

2005048093	<p>Chumash Painted Cave Erosion Control, Phase 2 Parks and Recreation, Department of --Santa Barbara</p> <p>This project is to be performed at Chumash Painted Cave State Historic Park to control erosion occurring at the site in an effort to protect the historic and cultural resources of the Chumash Painted Cave. This restoration project has grown out of a multi-disciplined evaluation of site conditions that included participation by rock art specialists, archaeologists, geomorphologist, and cave experts. The cave was created by wind blowing through the canyon. Wind blowing into the cave is continuing to erode the rock and the art. Volunteer trails have led to the degradation of native plants which once served as wind barriers and would divert water from running into the cave. The problem of wind and water erosion will be lessened by the installation of planter boxes to create areas of wind suppression, decommissioning of volunteer trails, and by use of debris boxes. Meetings will be held to discuss the project with members of the Chumash Native American Society and the Chumash Painted Cave community. An archaeological monitor will be present during any ground disturbing activity to ensure avoidance of potentially significant impacts to buried cultural resources.</p>	NOE

2005048104	<p>Restroom Replacements and Other Accessibility Upgrades Parks and Recreation, Department of --Lake</p> <p>Replace existing facilities at Kelsey Creek Campground at Clear Lake State Park with facilities that meet ADA standards. Add minor accessible features. Work includes:</p> <p>Park Entrance Area: Reconfigure accessible parking and entrance into office. Replace existing curb ramp and restripe parking. Replace door handle and parking sign and add accessible drinking fountain. The display panel providing park information will have soil surface leveled and compacted in front of panel.</p> <p>Boat Launch Area: Six existing picnic sites in the boat launch area will be improved for access by providing an accessible route to the sites and providing a firm surface under tables by proper compaction of existing soil or the addition of a cellular material or soil stabilizer to provide correct stability. This will require surface disturbance of 6" or less. Correct accessible parking will be provided along with curb cuts as needed. Parking stalls, 5 total, will require a sign post for each. The exhibit panel will have surface stabilized in the same manner as the picnic sites to provide correct viewing area. Fish cleaning station will be lowered to correct height.</p> <p>Group Day Use/Campfire Center: Demolish existing 16'x23' concrete masonry restroom and shower building and concrete slab and replace with new ADA-compliant building approximately 20 feet east, using the existing utilities and drainage system. The new building floor will be elevated 6"-12" from the current elevation. Remove +/- 75 linear feet of existing asphalt path and replace with same amount of ADA-compliant asphalt path connecting new building. Replace existing drinking fountain with ADA-compliant drinking fountain.</p> <p>Any trimming of trees on the site will be conducted by a qualified arborist in order to prevent undue damage to trees and to avoid creating safety hazards. When disturbing ground within an area equal to 5 times the diameter-at-breast-height (dbh) of existing trees, no soil will be disturbed between 0-2 feet in depth. For example, with a 24" dbh tree, soil disturbance shall not occur within 10 feet of the trunk. The new building will be placed a distance of >5 times the dbh of the trees away from their trunks (approx. 12' from the trunks). Work will avoid a distance of >5 times the dbh of the large oak trees in the campfire area when making improvements there.</p> <p>Construct accessible route between restroom campfire center and group area of a soil surface using native material compacted, cellular material, or soil stabilizer. Modify campfire center benches to provide 4 wheelchair seating areas. Replace group area barbeques with models of accessible design. Surface area under 4-6 tables will be improved for access using cellular material. A water station will be added with a French drain.</p> <p>Campground: Modify two existing combination restroom/shower buildings for accessibility by adding accessible shower room, toilet room and additional utility/equipment room adjacent to each of the two existing buildings. Replace existing drinking fountains with ADA-compliant drinking fountains on each building. Add 2 ADA-compliant benches to each building. Replace information board at each building with new ADA-compliant information board. Provide ADA modification to parking stalls and sidewalk (add signs, restriping, one new ADA ramp). Existing utilities and drainage system will be used. Some minor site grading adjacent to the existing building sites</p>	NOE

	with the City's General Plan.		
2002101069	El Paso Natural Gas Pipeline 1903 Conversion California State Lands Commission Bakersfield, Barstow, Blythe--San Bernardino, Riverside, Kern Conversion of 304 miles of Line 1903, an existing crude oil pipeline, to natural gas service in a small portion of La Paz County, Arizona, and Kern, Riverside, and San Bernardino Counties, California. A 6.4-mile expansion of the pipeline system at the Cadiz Pump Station is also proposed in San Bernardino County.	FIN	
2004041076	Pine Tree Wind Development Project Los Angeles County Department of Water and Power Mojave, Tehachapi, California City--Kern Development of 80, 1.5-megawatt (MW) wind turbine generators, several meteorological towers, an underground and overhead electrical collection system, a substation, a 8-mile-long, 230 kilovolt (KV) transmission line to connect with the regional electrical grid, an operations and maintenance (O&M) building, as well as access roads.	FIN	
2003061111	Don Alejandro Valdez Community Plan Mendota, City of Mendota--Fresno The project site consists of approximately 68 acres of land and is currently vacant with the exception of a dilapidated residence, maintenance shed, barn and abandoned farmworker housing. The proposed project is to annex the property from Fresno County to the City of Mendota. The site will then be developed as a mixed-use farmworker community consisting of 480 farm labor/ multiple family housing units, 73 single-family residential units, a commercial center, a child care facility, a multiple purpose park and community center, a service station, professional office sites and a farm labor transportation center.	NOP	05/09/2005
2005041045	LAUSD South Region Elementary School #4 Los Angeles Unified School District South Gate--Los Angeles LAUSD proposes to construct a new elementary school on the project site to provide relief to Bryson, Victoria, Liberty, and San Gabriel Elementary Schools. The project would provide 951 total two-semester seats, 775 seats for grades K-5 and 176 seats for an early education center. The site would accommodate approximately an elementary school of 57,000 square feet of building space including 31 classrooms, and an early education center of 13,000 sf of building space including 7 classrooms. In addition, the elementary school would also include a multipurpose room, library, cafeteria, administration offices, and a multi-purpose turf playfield. The site is currently occupied by residential and commercial uses.	NOP	05/09/2005
2005041046	Proposed Valley Region Elementary School No. 8 Los Angeles Unified School District Los Angeles, City of, San Fernando--Los Angeles New elementary school for 725 two-semester seats in grades K-5; about 53,000 sf of development for 29 classrooms; 3.7 acre parcel between Bromont and 8th Street southeast of MacLay Street. 2005048101	Roadway Rehabilitation Weed Caltrans #2 Weed--Siskiyou Caltrans is proposing a roadway rehabilitation project within the City of Weed on portions of Routes 97 and 265, and the Central and North Weed Interchange ramps on I-5 in Siskiyou County. The scope of the proposed project will entail pavement rehabilitation, replacement of sidewalks, driveways, curbs and gutters, necessary drainage improvements, reconfiguration of the Route 97 and 265 intersection, and the installation of traffic signals along Route 97 at College Avenue, Main Street and Route 265.	NOE	
2005048102	River Vista Single-Family Residence Demolition San Joaquin River Conservancy --Madera Demolish a dilapidated single family residence located on San Joaquin River Conservancy property. The single family dwelling has been unoccupied for years and is uninhabitable and a public nuisance.	NOE	
2005048106	Nicholas Flat Trail Accessible Extension Parks and Recreation, Department of --Los Angeles Construct a new trail extension to the Nicholas Flat Trail along the east side of the campground. This area has many visitor-created trails which have caused erosional problems due to their alignment with the terrain. Construction will include approximately 0.7 miles of 60" wide trailbed and culverts or (preferably) drain dips at minor drainages. The trail will begin at the northern end of the campground near the service road to the park water tank, climb to an elevation of approximately 75 feet then, mostly following contour, extend south to the campground entrance. With the intent of constructing a trail that meets the guidelines set forth by the Federal Access Board for accessible trails, the route will be constructed to an average grade of 5%. To help prevent the continuation or future creation of undesignated trails by park visitors approximately 1,000 feet of pole fencing will be constructed with the project. The vegetation communities affected by the trail construction will include sage and laurel sumac. Construction will include the use of both mechanical equipment and hand labor and will include the disturbance of approximately 540 cy of soil which will be used as fill where required. Construction period for this project will be 4-6 weeks depending on weather. A DPR-qualified archaeologist will be present during construction to ensure avoidance of significant impacts to cultural resources in the case of an inadvertent discovery.	NOE	
2005048107	Install Self-Service Fee Station and Signboard at Mineral Bar Campground, Auburn SRA Parks and Recreation, Department of --Placer Install a new self-service fee station and interpretive signboard at the Mineral Bar Campground within Auburn State Recreation Area. A 3' x 4' concrete pad will be constructed for the fee installation and the fee station and signboard will require a total of ten 9" x 36" holes for the posts and bollards that are part of these facilities. The location where the fee station and signboard will be located is on previously disturbed ground.	NOE

1994041043	Busick Tract Map San Luis Obispo County Arroyo Grande--San Luis Obispo The project proposes to subdivide a 47.54 acre parcel into sixteen (16) residential parcels, ranging in size from 2.0 to 5.3 acres in size. The project also proposes to develop project site infrastructure, including one main access road, one secondary road, drainage facilities, water supply facilities, and sewer connection lines. Portions of the property would be placed within open space easements. The residential lots would be sold to individual owners and developed independently.	EIR	05/25/2005
2003031088	Saint Athanasius Antiochian Orthodox Church Conditional Use Permit Santa Barbara County --Santa Barbara The project would involve the construction of a one-story temple of 8,455 sq. ft., a one-story chapel of 750 sq. ft., a one-story fellowship hall of 14,560 sq. ft., and a one-story, administration building of 2,735 sq. ft. Access to the proposed church facilities would be provided via an approximately 740-foot long, 25 foot wide paved roadway constructed within the westerly half of the publicly dedicated Plaza del Centro right-of- way from its intersection with Hollister Ave. Water service would be provided by the Goleta Water District. The project site is currently served by two, 2" water meters. Sewer service would be provided by the Goleta Sanitary District.	EIR	05/25/2005

2004092071	<p>California State University, Chico Campus Master Plan 2005 (formerly Campus Master Plan 2004) California State University Trustees Chico--Butte</p> <p>The proposed project consists of the adoption of an updated Campus Master Plan. The existing Campus Master Plan was adopted in 1991. The proposed Campus Master Plan 2004 provides for five new major academic buildings, two recreational facilities, a natural history museum, a child care center, approximately 1,300 bed-spaces of student housing, two parking structures, and improvements to the Agricultural Teaching and Research Center (ATRC) located approximately 2 miles from the main campus. The Plan calls for the demolition of several outdated and obsolete buildings. Implementation of various projects will require acquisition of additional properties adjacent to the campus. The Campus Master Plan 2004 also includes Design Guidelines that set forth a contract for ensuring that the design of new buildings contributes to a consistent architectural vocabulary for the campus. The Campus Master Plan 2004 is designed to accommodate a student enrollment of 17,900 FTES (academic year full time equivalent students), an increase of 2,900 FTES.</p>	EIR	05/25/2005
2003112038	<p>Buena Vista Wind Energy Project Contra Costa County Community Development Byron--Contra Costa</p> <p>Modified wind power plant located in the Byron Hills area of southeastern Contra Costa County. Project includes removal of all existing 179 wind turbines and overhead electrical connection lines; to be replaced (repowered) with up to 38 new, larger and more efficient turbines and underground electrical connection lines. All of the sites where existing turbines are removed will be reclaimed to agricultural use by removing all above-ground construction and covering any remaining foundations and other systems with soil suitable for agricultural use.</p>	FIN	
2004092088	<p>Tannery Arts Center Project Santa Cruz, City of Santa Cruz--Santa Cruz</p> <p>The project consists of development of an Ars Center on the former Salz Tannery property to include: (1) 100 affordable residential rental units; (2) 55,000 square feet of artist studio space; (3) a 250-seat theater and a smaller 150-seat theater with approximately 4,000 square feet of dance rehearsal space; (4) 40,000 square feet of office space for arts organizations within the "Arts and Education Center" with a 75-seat theater; (5) 6,600 square feet for arts education; (6) 12,400 square feet of retail space for a cafe, art gallery, and other retail uses, and (7) 7,114 square feet of theater support space. Project development consists of rehabilitation of eight existing structures and construction of four new structures.</p>	FIN

2005048187	Installation of a 24" Transmission Waterline West Valley Water District Fontana--San Bernardino Installation of 5,212 feet of a 24" waterline in Three Mile Road from Sierra Avenue westerly to Citrus Avenue. This pipeline will be constructed in an easement provided by the Metropolitan Water District in their maintenance and inspection road. This facility would benefit three proposed developments known as Citrus Heights (Tracts 16872-876 & 17039), The Summit at Rosena and a proposed development by Blackmon Homes. This project was approved by the Board of Directors of West Valley Water District on June 7, 2001.	NOE	
2005048188	Arroyo Simi - Industrial Park Habitat Restoration Mountains Recreation and Conservation Authority Simi Valley--Ventura Three private parcels totaling 21.46 acres are located within the project area. Improvements on acquired parcels would include debris removal, creation of wetland habitat and swales, planting of native vegetation, and repairing any fencing as necessary. Improvements would also be made on the approximately 9-acre parcel owned by the Simi Valley Unified School District. The properties would be regraded to create wetland habitat that would allow for increased infiltration of storm water. Small wetlands, in the form of meanders, would be created.	NOE	
2005048189	Conejo Creek North Fork - Wildflower Park Dechannelization Mountains Recreation and Conservation Authority Thousand Oaks--Ventura The 12.5-acre project would entail daylighting and dechannelizing the pipe and channel on the Venture County Flood Control District (VCFCD) property that runs between Avenida de los Arboles and Wildwood Avenue. A natural channel would be created on the northwestern portion of Wildflower Park. Native vegetation would be planted to create riparian and wetland habitat and an upland habitat buffer and small wetlands, in the form of meanders, would be created within the parameters prescribed by a fluvial geomorphologist.	NOE

2005048190	<p>Las Lajas Creek Channel Daylighting and Restoration Mountains Recreation and Conservation Authority Simi Valley--Ventura</p> <p>The channel and pipe through Ventura County Flood Control District (VCFCD) parcels at the intersection of Texas Avenue and Alamo Street would be daylighted and any concrete lining would be removed and replaced with riprap. Portions of the VCFCD parcels would be inundated with water and planted with native vegetation. The concrete channel in between Alamo Street and the 118 Freeway will be regraded and buried riprap would be installed in a creek configuration with more meanders. This would allow for increased infiltration of storm water. Several large private parcels on either side of the 118 Freeway would also be acquired. Small wetlands, in the form of meanders, would be created. This project seeks to create approximately two acres of prime riparian woodland habitat.</p>	NOE	
2005048191	<p>Kifer Trucking Fish & Game #3 Martinez--Contra Costa</p> <p>Approximately 220 feet of the existing tributary will be filled by the placement of a 48-inch concrete pipe. This pipe will connect to the existing 48-inch pipe at Pacheco Blvd. At the outlet no more than 100 sf (10' x 10') of loose rock riprap will be placed to dissipate the water. A 1728 sf pond will be constructed in the area between the new outlet and the existing 60-inch pipe inlet. A rock berm will be constructed in order to pond water approximately 1 to 1.5 feet deep. Issuance of a Streambed Alteration Agreement Number R3-2000-1239 is pursuant to Fish and Game Code Section 1602.</p>	NOE	
2005048192	<p>Precise Plan of Design No. 1930 Rialto, City of Rialto--San Bernardino</p> <p>Construction of one 20,800 sf industrial building.</p>	NOE	
2005048193	<p>Cosumnes River Preserve (CRP) Boater Access Enhancement Project Boating and Waterways, Department of Galt--Sacramento</p> <p>The boater access project completes the CRP Visitor Center and Trail Enhancement Project started in 2001. The boater access project completes 900 feet of trail, installs an 8-foot concrete abutment and constructs a 50 foot by 8 foot floating dock. The trail leads to an access point on Middle Slough located south of the CRP Visitor Center.</p>	NOE	
2005048194	<p>Zone No. 3 Canal Maintenance & Gunite Projects Placer County Water Agency Colfax--Placer</p> <p>The removal of deteriorated lining, bank washout restoration and application of gunite lining within deteriorated portions of the existing canal system.</p>	NOE	
2005048195	<p>Fire Engine Shelter for CDF (04/05-CD-26) Parks and Recreation, Department of --San Diego</p> <p>The project consists of the new construction of a temporary metal shed structure for covering the CA Dept. of Forestry's new fire engine to be stationed at the Cuyamaca Fire Station located within the park. The new engine will not fit within the bay of the current 1950 fire station. A new fire station will be completed in the Summer of 2007, but the new engine needs a temporary protective structure until that time. The structure will be 40' long, 17' wide, and 15' tall. Temporary concrete</p>	NOE

	footings will be placed to anchor the structure. This structure will be located on the back dirt yard behind the existing fire station.		
2005048196	West Side Trail Repair (04/05-CD-25) Parks and Recreation, Department of --San Diego Three small sections of the West Side Trail will be reconstructed to correct erosion damage, improve trail orientation to reduce future erosion problems, and to bring the trails up to ADA standards. Minor realignments of the trail segments will maintain trail grades at no greater than 8%. In areas of trail realignment, the previous trail segments will have soils decompacted, proper drainage restored, and a new native vegetation installed. No sensitive biological or cultural resources would be impacted by this trail repair project.	NOE	
2005048207	Install Storage Building Parks and Recreation, Department of --Sacramento Install a steel storage building at Brannan Island State Recreation Area to store irrigation equipment and firewood sold by Delta Natural History Association at the campground. The building is 75 feet long, 30 feet wide and 12 feet high. Minor grading and leveling will be required to install a concrete slab for the building. Trenching will also be required for electrical and water hook-ups. There are no elderberry shrubs within 100 feet of the project. The work is being conducted on previously disturbed ground which currently has exotic annual grasses. In the event that previously undocumented cultural resources are encountered during project construction (including but not limited to dark soil containing shellfish, bone, flaked stone, groundstone, or deposits of historic trash), work within the immediate vicinity of the find will be temporarily halted or diverted until a DPR-qualified cultural resource specialist has evaluated the find and implemented appropriate treatment and disposition of the artifact(s).	NOE

2003051141	Tentative Tract Map No. 29835 (TR 29835) and Change of Zone No. 7104 (CZ 7104), Draft EIR No. 451 Riverside County Planning Department --Riverside TR 29835: The proposed residential development would consist of 559 lots for single-family detached housing units at an overall density of 2.4 dwelling units per acre. Lots would range in size from 5,000 sf to 23,000 sf, with most of the lots having an average size of 6,000 sf. The low hills which run through the southern and western sections of the site would be preserved as open space, and a sports park and tot lot would be provided on 10.60 acres of the site. The existing single-family home at the southeastern corner of the site would be retained within a 10-acre lot. CZ 7104: The proposed change of zone would change the zoning on the site from the R-1 Zone (One-Family Dwelling) to the R-4 Zone (Planned Residential) and the R-5 Zone (Open Area Combining Zone-Residential Development). <u>Documents Received on Tuesday, April 12, 2005</u>			
2004051154	Mission Gardens Tract Map ED 03-164 (TR2527) San Luis Obispo County --San Luis Obispo The proposed project is a subdivision of 50.61 acres into a 60 lot residential development with lots ranging in size from 6,001 to 11,634 square feet within a 12.41 acre area, a 31.7 acre open space parcel (Lot 61) and two remainder parcels of 3.95 and 2.48 acres (Lots 62 and 63, respectively). The project involves grading and installing improvements and utilities resulting in the disturbance of approximately 13 acres and movement of approximately 30,000 cubic yards of cut and fill. Earthwork is anticipated to balance on-site with equal amounts (15,000 cubic yards) of cut and fill. Premature site grading during the summer of 2003 disturbed approximately 13 acres and included portions of adjacent properties to the west and south, not owned by the applicant. The illegal grading damaged or destroyed significant Mission era resources. The environmental documentation for the project includes analysis of these unauthorized grading activities as well as the proposed subdivision activities. The 50.16 acre project site is located east of Mission Street and south of 11th Street within the community of San Miguel in the Salinas River Planning Area.	EIR	05/26/2005
2004091090	Double Diamond Dairy Expansion Merced County --Merced Construction of two new freestall barns to increase the permitted milking herd by 1,200 cows, for a total of 10,698 animal units.	EIR	05/26/2005
2005041058	Vanguard Preparatory Apple Valley Unified School District Apple Valley--San Bernardino The project is the construction of a middle school consisting of approximately 24 relocatable classroom buildings, permanent restroom facility, gymnasium, playfields, parking areas and outdoor lighting. The school will serve the needs of the District's growing student population and the community. Educational programs will be offered during the day, but occasional evening programs are anticipated.	MND	05/11/2005
2005041060	Proposed Tentative Tract TT-05-020 Victorville, City of Victorville--San Bernardino To allow for the development of a 136-lot single-family residential subdivision.	MND	05/11/2005
2005041057	99-077 / TR52909 / RENVT20400028 / ROAKT200400029 / CUP Los Angeles County Department of Regional Planning Calabasas--Los Angeles Application for an OTP to encroach upon four oak trees; a CUP for proposed grading; and TR 52909 to develop 23 single family residences with lot sizes ranging from 87,120 s.f. to 168,021 s.f. The single-family residences will be located in the central portion of the 161.17 acre project site, approximately following the lowest relief. Proposed primary vehicular access will be from Canwood St. at Liberty Canyon Road. The new emergency second means of access will connect to De Berry Drive to the east. The proposed grading which will be balanced onsite will affect approximately 53.2 acres and will involve approximately 800,000 c.y. including the offsite grading to connect the primary access road to Canwood Street. Project will connect to existing water and sewer lines to the adjacent subdivision to the east.	NOP	05/11/2005

2005042071	EG-04-774 - Pappas Gateway Commercial Center Elk Grove, City of Elk Grove--Sacramento The project proposes a Rezone of the 2.34 acre parcel located at the corner of Bighorn Blvd. from Industrial Office Park (MP) to Limited Commercial (LC). This project also seeks to establish one 11,200 sf commercial building facing Bruceville Road to be used for allowable uses in the LC zone which may include restaurant and retail uses. Project entitlement for this project will require a Rezone and Design Review (Development Plan).	Neg	05/11/2005
2004082055	High Sierra Crossings Museum Parks and Recreation, Department of Truckee--Nevada Construction of a new museum / visitor center to introduce the public to the natural features and cultural history of Donner Memorial SP and the surrounding area and replace the existing Emigrant Trail Museum, located in a different area of the park. The project also includes an access driveway from Donner Pass Road and a new parking area.	NOD	
2004112061	City of Rio Dell Raw Water Intake Project Rio Dell, City of Rio Dell--Humboldt The project includes permitting, designing, and constructing a permanent water supply system to serve the residents of the City of Rio Dell. The existing system is temporary and has failed eight times since its installation in 2001. Supply failures have lead to domestic water shortages for the City's residents. Interruption of the water supply results in public health, safety, and welfare threats. The proposed system consists of an infiltration gallery intake and wet well located within the Eel River. The intake facility will be constructed on a City-owned parcel. A temporary access road, needed for construction of the intake facility, will be constructed on California Dept. of Fish and Game property immediately east of the City property.	NOD	
2005011079	Little Guys and Gals Park Improvement Livingston, City of Livingston--Merced This project consists of restroom renovation, parking lot construction, and the installation of four light poles at a 1.75-acre park site in the City. The restroom project involves aesthetic improvements and fixture replacement; the parking lot project involves paving over a small dirt lot presently used for parking, and constructing an irrigated landscape strip next to the parking lot; and the lighting new ones, including 22 new luminaries.	NOD	
2005021029	Solstice Creek Steelhead Restoration Project Resource Conservation District of the Santa Monica Mountains Malibu--Los Angeles The project's purpose is to restore steelhead trout habitat in upper Solstice Canyon by removing fish passage barriers in the form of three check dams and four Arizona crossings.	NOD	
2005032014	Housing Element Update Belvedere, City of Belvedere--Marin The project consists of an update of the City of Belvedere's Housing Element, which has been reviewed and approved by the State of California's Department of Housing and Community Development. 	provisions for providing the City of Belvedere's fair share of the regional housing need, which is a total of 10 units between January, 1999 and June, 2006, with the following income breakdown: 1 unit affordable to a very low income household (10 percent of the total); 1 unit affordable to a low income household (10 percent of the total); 2 units affordable to moderate income households (20 percent of the total); and 6 units affordable to above moderate income households (60 percent of the total). Belvedere is unique insofar as it is severely limited in developable land; it is essentially built out. Therefore, redevelopment is the most likely method of meeting the legal obligation to provide 10 units of affordable housing. In reviewing potential options, it appears that second units may provide the most likely way to meet the housing need, which is the plan that has been described, and is currently being implemented, in the Draft Housing Element, and is the plan that has been approved by the Department of Housing and Community Development.		
2005034003	Addition/Alteration, New Construction - Roseville Readiness Center Army National Guard, California Roseville--Placer The proposed action includes three separate components: 1) the Alteration of a single unit Readiness Center (also known as the armory), constructed in 1963; 2) an engineered building to accommodate existing units and requirements and 3) outside supporting facilities/infrastructure.	NOD	
2005049019	EA39294 CZ6897 / TR31831 Riverside County Transportation & Land Management Agency --Riverside CZ6897 proposes to change the zone from I-P to R-1. TR31831 proposes to subdivide 29.9 acres into 103 residential lots with a 1.0 acre park.	NOD	
2005048197	North Yuba River Watershed Improvement: Abandoned Mine Reclamation and Restoration (GA #03-246-555-0) Sierra County --Sierra 75 acres-restore 5 abandoned mine sites including un-maintained access roads tributary to No. Yuba River on USFS lands-Western Sierra County.	NOE	
2005048200	CSUMB Sports Field Project California State University, Monterey Bay Seaside--Monterey The area currently contains a swimming pool, track stadium, two soccer fields, along with a dilapidated bowling alley and field house. There is also a large paved area, which has several abandoned buildings that are proposed for removal. The project will consist of demolishing the unusable, remnant Fort Ord structures and to remove, grind, and recycle the asphalt areas. Site preparation will include grading, drainage, and underground utilities. The complex will be connected to the campus 12 kV electrical system, thus removing the site's dependence on a separate PG&E service. After site preparation, the athletic fields will be constructed and the area will be landscaped, including tree sound breaks along all major streets, to provide a healthy, appealing open area while also facilitating both pedestrian and motorized traffic. One baseball and one softball field will be constructed of synthetic grass south of the track stadium. They will be constructed to NCAA requirements, ultimately having dugouts, bullpens, foul poles, back stops, bleachers, batting cages, and a PA system. Two asphalt basketball courts and 8 NCAA regulation tennis courts	NOE

<u>Documents Received on Tuesday, April 12, 2005</u>			
	<p>are located in the northeast corner of the complex, which will include court lighting to allow for night games. A major part of this project will be the renovation of the Field House, which will be renovated for accessibility compliance. The existing restrooms at each end of the Field House will be remodeled to increase capacity and provide ADA compliant facilities. There will be sufficient sanitary facilities to accommodate 4000 stadium seats. Multi-purpose team rooms will be located on each side of the Field House. Clearstory windows will penetrate the new roof above and facilitate natural lighting and ventilation. At the center of the building, a concession addition with ticket booth is planned, integrating storage and office space. A new heating and ventilating system will integrate with new electrical lighting retrofit. In addition, electrical service will be upgraded, accommodating the concession addition and future requirements.</p> <p>Prior to construction, approximately 12 abandoned, remnant Fort Ord buildings will be demolished. A hazardous materials survey has been conducted on these buildings by EnviroScience, Inc. It has found that most of the buildings are suspected to have Asbestos Containing Materials, and lead paint on their exterior walls. As a result, a strict Demolition Plan, is required by the MBUAPCD, which requires that a demonstration project be conducted and approved by the MBUAPCD to monitor the ambient lead concentrations during an initial demolition. Collected samples will be analyzed to determine if the proposed demolition process can proceed in compliance with MBUAPCD regulations. These samples will be collected in strict compliance with EPA guidelines. The MBUAPCD has already been contacted about this project, and the required forms have been completed, and the district will continue to cooperate closely to ensure that their criteria, including a maximum lead particulate concentration of 0.30 g/m³, are met.</p> <p>During construction, emissions of dust would result from grading and excavation associated with the construction of the new building. Dust emissions would vary day to day depending on the level of activity, the specific operations, and the prevailing weather. To reduce the potential impact of dust emissions, the campus will insure, through construction contract conditions, that the following recommended control measures are implemented as necessary.</p> <ul style="list-style-type: none"> - Watering disturbed (graded or excavated) surfaces as necessary, increasing frequency when weather conditions require, - Covering all trucks hauling soil, sand, and other loose materials or requiring all trucks to maintain at least two feet freeboard, - Sweeping all paved access roads, parking areas and staging areas with water sweepers, - Sweeping streets with water sweepers if visible soil materials is carried onto adjacent public streets, - Enclosing, covering, watering twice daily, or applying non-toxic soil binders to exposed stockpiles, - Installing sandbags or other erosion control measures to prevent silt runoff to public roadways. 		
2005048201	<p>501 Prospect Street Restoration Project Fish & Game #5 --Ventura</p> <p>The operator proposes to alter the streambed to reclaim approximately 1.5 acres of property on the east bank of the Ventura River lost during high flows of the river in early January, 2005.</p>	NOE

	hand from the pit, excavate rock material, and haul the material to a storage location at the Robert A. Skinner Filtration Plant. Metropolitan proposes to place K-rails in several locations along the edge of the high water road to ensure public safety. In locations where K-rails have been installed, Metropolitan proposes to widen the opposite side of the road to allow emergency vehicle access.		
2005048220	Replacement of Concrete Canal Liner Panels within the Casa Loma Canal Metropolitan Water District of Southern California San Jacinto--Riverside Metropolitan proposes to replace concrete canal iner panels within the Casa Loma Canal. Metropolitan proposes to remove and replace two damaged concrete panels at Station 360+00 of the canal. The damaged concrete panels will be broken up, removed from the canal, and disposed of in an approved off-site location, and new concrete will be poured to replace the panels. The existing chain-link fencing will be removed to allow access to the project site and will be replaced upon project completion.	NOE	
2005048221	Culvert Installation at Service Connection SD-2 Metropolitan Water District of Southern California Unincorporated--San Diego The Metropolitan proposes to install two culverts at Service Connection SD-2, located along the access road for the San Diego Pipeline Nos. 4 and 5. Metropolitan proposes to install two 18-inch diameter culvert pipes at an existing paved road crossing at Rainbow Creek to convey creek flows beyond the road crossing to the natural drainage downstream. The pipes would be held in place by six-inch minus rock concrete slurry and a constructed headwall and tail-wall at the upstream and downstream edges of the crossing, respectively. Within the road crossing, the pipes would be covered with suitable road base material consisting of gravel and sand. In order to install the culverts, Metropolitan proposes to remove accumulated sediments and vegetation from the project area.	NOE	
2005048222	Repair and Maintenance of Access Road to Eagle Mountain Pumping Plant Metropolitan Water District of Southern California Unincorporated--Riverside The Metropolitan proposes to make repairs to and perform maintenance on the access road leading to the Eagle Mountain Pumping Plant. Metropolitan's access road to the Eagle Mountain Pumping Plant extends west off of Kaiser Road, which extends north off of I-10 in the vicinity of the community of Desert Center. Metropolitan proposes to chip seal and fog seal the access road, as well as repaint the centerline.	NOE	
2005048223	Long Canyon Hillclimb Restoration - Hollister Hills State Vehicular Recreation Area (SVRA) Parks and Recreation, Department of Hollister--San Benito The objective of this project is to remove the existing Long Canyon hillclimb motorcycle trail (1,600 feet) and restore the area to natural conditions. The trail is located within the Lower Ranch of Hollister Hills SVRA. Because of the soil type (decomposed granite) and steepness of the trail, persistent soil loss has occurred, maintenance is no longer practical and the trail is currently un-useable by riders. It is the intent of this project to remove and rehabilitate the trail and return it to a more natural configuration, and to restore the site to become again part of the surrounding chaparral plant community. The project will be implement in March, 2007.	NOE

2004042122	<p>Eastern Sacramento County Remediated Water Supply Project Sacramento County Water Agency Folsom--Sacramento</p> <p>SCWA proposes to provide for beneficial use of 35,465 AFA of remediated water from existing and proposed GET facilities. Remediated water from GET facilities operated by Aerojet and Boeing would be discharged into the American River at six locations. Water would then be diverted at three locations and treated to potable standards for delivery through SCWA's distribution network. The project includes delivery of 5,000 AFA of water to the Consumnes River. The purpose of the Consumnes River water delivery is to improve fish passage and restore near surface conditions for the benefit of the riparian forest.</p>	NOP	05/16/2005

2005042083	<p>Raley's Landing Development Agreement and Planned Development - 30 Amendments West Sacramento, City of Sacramento--Yolo</p> <p>The City of West Sacramento proposed to amend the Raley's Landing Development Agreement and PD-30 text to create a mixed-use development consisting of residential, commercial, office, and open space features oriented toward the Sacramento River waterfront to the east and West Capitol Avenue to the south. The development, located in the northeastern portion of the city, would occupy 18.55 acres bordered by the Sacramento River on the east; Fifth, Fourth, and Third Streets on the west; West Capitol Avenue on the south; and E and G Streets on the north. At buildout, the proposed project would contain approximately 900 residential units, 845,000 gross square feet of office space, 86,000 square feet of commercial/retail uses, and possibly 100-300 hotel rooms with a 7,000-15,000-square foot conference center; it would provide between 4,352 and 4,652 on-site parking spaces, including surface and multilevel parking spaces. The proposed project is divided into four development areas: Washington Street, River 1, River 2, and River 3.</p>	NOP	05/16/2005
2005042088	<p>Folsom Lake Temperature Control Device El Dorado Irrigation District --El Dorado</p> <p>El Dorado Irrigation District, in collaboration with the US Bureau of Reclamation, proposes to construct facilities on the bank of Folsom Lake to withdraw water from the warm upper reaches of the lake while preserving the cold water pool at the bottom of the lake to protect downstream aquatic species. The facilities will include a large diameter concrete lined vertical shaft and five lined horizontal adits extending from the shaft. This structure, known as a Temperature Control Device (TCD) will replace the District's five existing raw pump casings that currently extract water from Folsom Lake at a rate of 19.5 MGD.</p>	NOP	05/16/2005

2005041089	North Outfall Replacement Sewer Air Treatment Facility Los Angeles, City of Culver City--Los Angeles Proposal to eliminate odors form the sanitary sewer system by collecting foul air from the sewer, removing the odorous compounds and then released the "scrubbed" air into the atmosphere. The North Outfall Replacement Sewer Air Treatment Facility will include a two-stage treatment system. The first stage will involve air treatment through two beds of a single media in biotrickling filters (BTFs), which will remove 99% of the hydrogen sulfide and volatile organic compounds (VOCs) in the sewer air. The second stage will consist of an activated carbon treatment system, which will remove the remaining VOCs and odors. The treatment process is biological and uses no chemicals; this technology is considered environmentally-friendly. The 3-bed BTF facility will be on a concrete pad approximately 72 feet in length and 24 feet in width. Each of the BTF tanks will be approximately 12.4 feet in diameter and 29 feet tall. The activated carbon treatment system will consist of four tanks, each about 12 feet high and 12 feet wide. Treated air will be conveyed to a stack and discharged into the atmosphere.	Neg	05/16/2005
2005042085	Daniel J. Savage Middle School Sylvan Union School District Modesto--Stanislaus Construction of a new middle school within the northeast part of the City of Modesto. 	headwalls/endwalls. Replacement of non-standard drainage inlets with standard drainage inlets will also be completed at appropriate locations. Ditch grading of the existing channels will be needed to provide for positive and uninterrupted flows. Erosion control will be implemented around culverts where the ground is disturbed.		
2002031122	North Mojave Route 14 Four-Lane Widening Caltrans #6 California City--Kern The project involves the widening of SR 14 from Post Mile 16.07 to Post Mile 26.4 to four lanes. The project will result in impacts to California Desert Tortoise and Mohave Ground Squirrel, which are protected under the California Endangered Species Act (CESA), requiring issuance of a California Incidental Take Permit (Permit). The Permit referenced above as issued by CDFG authorizes incidental take of the species under CESA that may result with implementation of the project. Issuance of the Permit by CDFG is based on a finding that, among other things, all impacts on the species resulting from the authorized take will be minimized and fully mitigated under CESA through various avoidance and other mitigation measures, including the acquisition and permanent preservation of approximately 1194 acres of habitat for the species.	NOD	
2004071097	F.E. Weymouth Filtration Plan Ozonation Facilities and Site Improvements Program Metropolitan Water District of Southern California La Verne--Los Angeles The project consists of the following elements: 1) the Oxidation Retrofit Program (ORP), 2) the Weymouth Improvements Program, and 3) operation and maintenance activities. Metropolitan has funded and authorized final design of ozone facilities for the ORP. The addition of ozone at Metropolitan's treatment plants will remove blend restrictions and substantially lower disinfection by-product levels for compliance with both Stage 1 and Stage 2 of the Environmental Protection Agency's Disinfectants/Disinfection By-Products Rule. The ORP includes ozone generation equipment, site preparation, ozone facilities (including a liquid oxygen storage facility, ozone generation building, ozone contractor building, an ozone off-gas destruct system, electrical switchgear building and switchyard, chemical tank farms, hydraulic conduits, ancillary systems, and general site road improvements), chemical storage and feed systems, utility systems, and modifications to upstream hydraulic features. Upgrades to the Wheeler Avenue plant entrance will be made to enhance plant security and deliveries, a new rail spur will be constructed to allow for rail delivery of sodium hydroxide and sulfuric acid to the ORP area, and new power facilities will be built.	NOD	
2004091148	Santa Ysabel Avenue Traffic Calming and Pedestrian Safety Project San Luis Obispo County --San Luis Obispo A proposal by San Luis Obispo County Public Works Department to modify Santa Ysabel to increase vehicular and pedestrian safety. Specifically, the County proposes to widen and construct median islands at selected intersections of Santa Ysabel Avenue between South Bay Boulevard and 7th Street. A pedestrian pathway will also be constructed on the south side of Santa Ysabel Avenue. Striping and signage will support these constructed features.	NOD

2005032016	Execution by Sonoma Co. Water Agency, Mendocino Co. Water Agency, Redwood Valley Co. Water District and the County of Mendocino of Memorandum of Understanding Redwood Valley County Water District --Mendocino, Sonoma The project consists of the execution of a Memorandum of Understanding (Contract) between Sonoma County Water Agency, Redwood Valley County Water District, the County of Mendocino and the Mendocino County Water Agency, providing for availability of water from the water rights and particular storage rights of the Sonoma County Water Agency to the extent that water may be available during surplus conditions to Sonoma County Water Agency's needs, and subject to the limitations contained within the water rights of the Sonoma County Water Agency permitting the service to the Redwood Valley County Water District. The amount of water available under the Contract is limited to 3,000 acre-feet, and lesser amounts under drought-type conditions. The water service amount is further limited by the provisions of Decision 1610 which restrict water availability to Redwood from Sonoma County Water Agency's right based on reservoir storage and inflow to Lake Mendocino. An overriding principle of the Contract is that	NOD

	<p>Redwood would reduce its water use under the Sonoma Contract by at least the amount percentage-wise that Sonoma's contractors and citizens reduce their water use. The Agreement may be terminated by 30 days prior written notice, and will have an initial term of five years. As a term of the Agreement, Redwood agrees to pay an amount equivalent to the per-acre foot amount paid by landowners within the boundaries of Sonoma through their tax rate and water service charges for the Warm Springs Dam Project. That charge is currently estimated at \$42.25 per AF. The amount of water taken from Sonoma will only be after satisfaction of the amounts of water available from the Mendocino County Russian River Flood Control and Water Conservation Improvement District (MCRRID) to Redwood which is charged at a lesser rate. Conditions of the Contract include, in addition to the general reductions in pumping of water based upon the hydrologic conditions, to maintain the moratorium adopted by the Superior Court in 1989 upon new connections for domestic water service to the District's system, and to maintain the moratorium on new connections to Redwood Valley's agricultural water system as specified in Redwood Valley's Resolution No. 2-01, including limitation on the rate of delivery of agricultural water to existing customers. Redwood is required to notify the County in regard to any new building or construction project within its boundaries as to the conditions of the moratorium, and the County will take such conditions into effect in determining whether to condition or grant the permit. The Contract further requires adherence to the Memorandum of Understanding for urban water conservation and the Memorandum of Understanding regarding efficient water management practices by agricultural water supplies in California. No change in the practices of Redwood will arise from adhering to the terms of these Memorandums of Understanding. The proceeds of the payments will be administered by an advisory board consisting of Mendocino County, Mendocino County Water Agency, and the funds collected, if any, will be used for cost-effective water conservation projects, use of recycled water to replace other water supplies, and measures to enhance the population or habitat of anadromous fish.</p>		
2005032022	<p>Redwood Harley Davidson Eureka, City of Eureka--Humboldt</p> <p>The applicant is requesting approval of a coastal development permit in order to construct, in two phases, a new motorcycle showroom and service facility for Redwood Harley Davidson. Phase 1 will include the construction of an approximately 18,000 sf building and will include construction of all off-street parking and landscaping for both phases; Phase 2 will add approximately 7,000 sf to the building. The applicant is also requesting a variance to the sign code to increase the allowable sign area of 180 sf to a maximum of 612 sf, and to increase the height of a pole sign from the maximum height of 24' to 45'; at this time, the applicant is proposing to install approximately 411 sf of signage.</p>	NOD

Documents Received on Friday, April 15, 2005

of an existing campsite, which will be relocated to the footprint of the demolished building. The new building will be approx. 290 sf and employ flow fixtures and other water conservation measures to reduce water flow to less than existing.

The project will also require the following associated site work:

1. Construct new ADA-compliant parking site and path of travel to new building and new ADA-compliant campsite, including the construction of a wooden pedestrian overcrossing (+/- 10').
2. Provide new ADA-compliant sidewalk.
3. Removal of asphalt from old ADA-compliant parking spur.
4. Removal of several timber curbs.
5. Removal of three trees less than 12" dbh.
6. Some minor grading (fill) around the building and in the path of travel will be required. Existing utilities will be extended to new building. These utilities will include approximately 80' of new sewer line to existing septic tank, 120' of underground electrical line from existing electrical service, and 140' of waterline (overground) from existing waterline.

Work will comply with the following conditions:

1. Construction activities that result in the generation of noise above the ambient levels will occur outside of the northern spotted owl and marbled murrelet breeding seasons (Feb. 1 through Sept. 15).
2. Contractors or individuals involved in the construction of the facility will be instructed by the project manager on proper disposal and policing of trash and food within the project area. The contract will stipulate that contractors will be responsible for keeping the work area free of trash (especially food or other items that may attract corvids).
3. Roots greater or equal to 1 inch in diameter will not be impacted by any excavations. If necessary to excavate in areas with tree roots greater or equal to 1 inch in diameter then it will be done by hand so as not to damage the roots.
4. A qualified engineer will develop plans that address the potential for chronic slope movement on the integrity, safety and maintenance of the project infrastructure. Drainage controls will be developed as part of this planning effort.
5. Septic system design will consider the potential for slope movement and related impacts on water quality and will also consider the potential for the effluent to caused localized saturation that may impact the stability of the proposed construction site or other sites within the campground.
6. Guidelines in the Erosion and Sediment Control Field Manual for Construction will be used as Best Management Practices for controlling off-site sedimentation and incorporated into any contract for work.
7. Emergency response will consider the needs of less mobile individuals at this location.
